## New Features in the 2.5 Series

- **Groups** - Member-created social communities based on members' areas of interest
- **Connections/Friends** - Connect with and follow other people's activity in the community
- **Enhanced People Search** - Easily find groups of people in the community based on similar profile attributes
- **Invite a Friend** - Add viral capabilities to your sites by offering members a quick way to invite others to join the community
- **Configuration** - Site and community admins can configure the look and feel of their site without the need for customizations
- **Basic Configuration** - Easily configure your site's color scheme and logo for simple tailoring of the look and feel
- **Advanced Configuration** - Download our developer kit, update the included images and CSS, and upload the the updated package to easily deploy custom themes
- **Global Rename** - Rename Clearspace features and concepts to meet your specific vocabulary or nomenclature

- **Configurable Registration** - Manage the fields that are displayed to new members when they register.

## Enhancements in the 2.5 Series

- **RTE Enhancements** - An enhanced authoring experience that is consistent with commonly used tools and eases the use of advanced capabilities through simplified wizards
- **Moderation** - Consistent approach for moderation and report abuse across all content types
- **Project Improvements** - New project statuses; follow projects to easily see roll-up reporting; import and export task data to integrate your project with enterprise project management tools
- **Cloud Sharing** - Now your cloud participants can view attachments associated with documents that are being shared
- **Blog Permissions** - Group blogs now follow the permissions of the community, project, or group with which they are associated
- **New Location Picker** - Selecting the location of new content is simplified by an intelligent picker suggests the places (communities, projects, groups) that you use most often
- **Tag Navigation** - Narrow your focus when navigating content by progressively selecting tags that are used together

Here's a list of things to know about this version of Clearspace, including, improvements and fixes since the previous version, and issues you might find.

## Known Issues in 2.5.10

- [CS-13005] Adding approvers to document has 'conflicting versions' error incorrectly
- [CS-12996] Accessing setup console always sets Allow user-created accounts to true
- [CS-12972] Reverting to a document to a version that has a status of ARCHIVED results in new version not being to users
- [CS-12963] Bulleted list in HTML widget does not show bullets
- [CS-12939] Web services call breaks next request (normal page or web services)
- [CS-12900] LDAP Profile Synch slowdown due to ProfileFieldValueCalculator
- [CS-12872] Project Calendar is missing translations
- [CS-12869] Revoking group invitation prevents further invites to that group
- [CS-12867] Revoking group invitations in IE6 and IE7 produces javascript error
- [CS-12857] social group with disabled users as members cannot be deleted
- [CS-12825] Adding document approver after one approver has already approved the document messes up the state of the document
- [CS-12816] If user's name is set to be hidden in their profile, Freemarker error results in content picker when clicking browse history tab
- [CS-12810] Having alternate email address on a user's profile, causes the vcard to fail with a Freemarker exception
- [CS-12803] Some users with Chinese usernames do not show in the People page (Oracle only)

- [CS-12779] Moderation queue entry for content that contains very wide image expands across the moderation screen hiding controls
- [CS-12771] Leaving a note on a moderated item causes it to remain in moderation queue after being moderated by another user
- [CS-12770] Double Framed Avatars in User Bar
- [CS-12768] Need to be able to create a Custom profile field that is both non-visible and editable
- [CS-12763] Short syntax for attachments in a link in content will cause the link to render as the full URL to that attachment when in the RTE
- [CS-12755] Root level space admin cannot see the full home page of a private social group but can view content from a private social group
- [CS-12753] Combining search boolean expressions with tags field operator in a search does not work
- [CS-12743] Social Group invitations should not be case sensitive on email address
- [CS-12707] Permission group membership cannot be modified concurrently in a cluster
- [CS-12704] document gets autoconverted into an html macro
- [CS-12696] Tasks can be run when app isn't in 'RUNNING' state
- [CS-12691] RSS Widget can cause page hangs
- [CS-12687] Linking to internal links with edit parameters doesn't work
- [CS-12676] Pagination problems with posts flagged for abuse
- [CS-12669] Unclosed macro in tag-widget FTL causes stack trace
- [CS-12653] Text disappears after mouse click at end of line with numbered list and color for all the text in IE7
- [CS-12643] Rejecting a document with a duplicated title throws an exception
- [CS-12633] DbGroupManager.update() can be extremely costly in a clustered instance
- [CS-12629] In RTE, Right Click -> Insert Image does not respect permission settings
- [CS-12627] Migrating blog to community doesn't add to entitlement
- [CS-12626] Recent Content will not pull up Blog Posts, Documents if you disable content type (Discussions are fine)
- [CS-12622] The PermissionService.addCommunityPermissionToGroup() web service method does not work because it is defined as a POST but uses GET style parameters
- [CS-12602] Announcements don't wrap gracefully if there are too many of them
- [CS-12585] Secret groups hiding results on groups overview page
- [CS-12576] "View" link is missing in uploaded document in IE6
- [CS-12474] Popularity determination task SQL includes extraneous table causing a nasty cartesian product as a result of the non-join
- [CS-12319] Space creation not propagating through cluster members
- [CS-12298] Cannot view the attached document
- [CS-12156] Flags in WikiContentHelper set to true by default
- [CS-11922] CLONE -Moderator of a space cannot see tasks in a project in that space unless they are explicitly granted visibility to the space

- [CS-11853] Blog Reports are empty (admin console -> Reporting -> Reports)

## Fixed Issues in 2.5.10
